

Dear **ANASA Member**

As part of our on-going commitment to promote ethical behaviour amongst our members and a reputable business culture we believe the following must be brought to your urgent attention

In 2012 we were informed and the allegation was substantiated with documentation that a health agency operating as Rainbow Nursing Agency is alleging to have membership with our Association in an attempt to secure temporary nurse placement contracts. As you are undoubtedly aware, membership with ANASA is not automatic and certain non-negotiable criteria must be met by an agency before they are considered ANASA-Compliant. Rainbow Nursing Agency is not a member ANASA.

Rainbow Agency is making an appearance again this year in a few Netcare hospitals trying to recruit staff. We have sent this alert to our database and would appreciate if you can spread the word to you staff and clients to create greater awareness. We have urged clients to contact the ANASA office for formal verification of membership to secure the integrity of legitimate ANASA members.

Thanking you in advance for your support.

Regards

Leigh-Ann Georgiev

**Administration and Communcations Manager**
